

Electricity Distribution Information Disclosure Determination 2012, section 2.4.12 Prescribed Terms and Conditions of New Non-Standard Prescribed Contracts Vector for the Disclosure Year ending 31 March 2014	
New non-standard Agreement	
Prescribed term (a) Describe the goods or services to be supplied under the contract	Introduction: The agreement sets out the terms that Vector has agreed to connect and permits the continued connection of the customer's electrical fittings to the Distribution Network at the Customer's premises and will provide Network Services to the Customer.
Prescribed term (b) Determine or provide for the determination of the quantity or amount of those goods or services	Schedule 1:2. Supply Capacity The capacity which Vector will, from the Start Date make available to the Customer and upon which the Network Charge is based is 2900kVA.
Prescribed term (c)ii Specify, determine, or provide for the determination of the timing of payment for those goods or services	Clause 8.3(a): The Charges for the previous month will be invoiced by Vector to the Customer by the 9th working day of each month and will be payable by the Customer on or before the 20th day of that month. If Vector fails to send an invoice to the Customer by the 9th working day of any month, then the due date for payment for that invoice will be extended by one working day for each working day that the invoice is late.
Prescribed term (c)iii Specify, determine, or provide for the determination of the security for payment for those goods or services	15.1 Guarantee: The Customer agrees that it will, if required to do so by Vector, procure a guarantor to guarantee payment of the Charges on the terms of the guarantee set out in Section 6 of Schedule 1. Schedule 1 Section 6 [Is blank]
Prescribed term (c)iv Specify, determine, or provide for the determination of the EDB's obligations and responsibilities (if any) to consumers in the event that the supply of electricity lines services to consumers is interrupted.	Clause 6: VECTOR'S RIGHT TO INTERRUPT SUPPLY 6.1 Notwithstanding clause 3.1, but subject to the Performance Standards, Vector may interrupt the conveyance of electricity to the Point of Connection: (a) to enable Vector to inspect or effect alterations, maintenance, repairs or additions to any part of the Distribution Network; (b) to avoid danger to persons or property, or to avoid interference with the regularity or efficiency of the conveyance of electricity to the Point of Connection; (c) to preserve and protect the proper working and safety of the Distribution Network or any other distribution network through which electricity is supplied to the Distribution Network;

	<p>(d) where Vector reasonably anticipates that due to circumstances outside its reasonable control, the supply of electricity or any capacity to any Point of Connection is or will be reduced, impaired or interrupted;</p> <p>(e) for any other purpose, which, in Vector's reasonable opinion, requires the interruption or reduction in the conveyance of electricity;</p> <p>(f) if supply of electricity to the Grid Exit Point is, or will be, reduced, impaired or interrupted;</p> <p>(g) to allocate electricity where there is insufficient electricity to fully satisfy the demands of all customers whose premises are connected to the Distribution Network;</p> <p>(h) upon instructions from any Transmission Service Provider or any central or local government or statutory authority, or as a result of an action by any Transmission Service Provider under any agreement between Vector and that Transmission Service Provider; or</p> <p>(i) in response to an event of Force Majeure.</p> <p>and, wherever possible, Vector shall use reasonable endeavors to provide the customer with as much advance warning of such interruption as is practicable in the circumstances. Where such prior notice is not possible, Vector will notify the Customer of such interruption as soon as practicable after the interruption has commenced.</p> <p>SCHEDULE 1.5(i): Planned Maintenance: Where Vector plan to undertake planned maintenance on the Distribution Network that requires an interruption to the supply of electricity to any Point of Connection, Vector will notify the customer either directly, or via the Customer's Retailer in writing to that effect, so that the Customer will receive 10 working days' notice prior to the interruption. Vector shall have no liability to the Customer in relation to a failure to give such a notice.</p> <p>Restoration Times: In the event of an unexpected interruption to the supply of electricity Vector plans its resources in order to restore supply to most customers within 3 hours; however events outside Vectors control may influence this timeframe and Vector accepts no liability for failure to restore supply within such time frame. For instance, heavy traffic, multiple concurrent outages due, typically to inclement weather conditions, outages on networks not owned by Vector, which affect Vector network, or outages on remote areas of the network or emergency services preventing access.</p> <p>Where restoration takes over 3 hours Vector will provide the customer with a written explanation for the extended restoration time frame if requested in writing by the customer.</p>
<p>2.4.17 (1) The electricity supply capacity (in kVA) of the assets used for the purposes of conveying electricity under the contract - (a) at the ICP if the electricity conveyed to a consumer</p>	<p>2900kVA</p>
<p>2.4.17 (2) The voltage at which the electricity is to be supplied or conveyed under the non -standard contract</p>	<p>400 volts</p>

Electricity Distribution Information Disclosure Determination 2012, section 2.4.12 Prescribed Terms and Conditions of New Non-Standard Prescribed Contracts Vector for the Disclosure Year ending 31 March 2014	
New non-standard Agreement	
Prescribed term (a) Describe the goods or services to be supplied under the contract	Introduction: The agreement sets out the terms that Vector has agreed to connect and permits the continued connection of the Customer's electrical fittings to the Distribution Network at the Customer's premises and will provide Network Services to the Customer.
Prescribed term (b) Determine or provide for the determination of the quantity or amount of those goods or services	Schedule 1:2. Supply Capacity: The capacity which Vector will, from the Start Date make available to the Customer and upon which the Network Charge is based is 250kVA.
Prescribed term (c)ii Specify, determine, or provide for the determination of the timing of payment for those goods or services	Clause 8.3(a): The Charges for the previous month will be invoiced by Vector to the Customer by the 9th working day of each month and will be payable by the Customer on or before the 20th day of that month. If Vector fails to send an invoice to the Customer by the 9th working day of any month, then the due date for payment for that invoice will be extended by one working day for each working day that the invoice is late.
Prescribed term (c)iii Specify, determine, or provide for the determination of the security for payment for those goods or services	15.1 Guarantee: The Customer agrees that it will, if required to do so by Vector, procure a guarantor to guarantee payment of the Charges on the terms of the guarantee set out in Section 6 of Schedule 1. Schedule 1 Section 6 [Is blank]
Prescribed term (c)iv Specify, determine, or provide for the determination of the EDB's obligations and responsibilities (if any) to consumers in the event that the supply of electricity lines services to consumers is interrupted.	Clause 6: VECTOR'S RIGHT TO INTERRUPT SUPPLY 6.1 Notwithstanding clause 3.1, but subject to the Performance Standards, Vector may interrupt the conveyance of electricity to the Point of Connection:

	<p>(a) to enable Vector to inspect or effect alterations, maintenance, repairs or additions to any part of the Distribution Network;</p> <p>(b) to avoid danger to persons or property, or to avoid interference with the regularity or efficiency of the conveyance of electricity to the Point of Connection;</p> <p>(c) to preserve and protect the proper working and safety of the Distribution Network or any other distribution network through which electricity is supplied to the Distribution Network;</p> <p>(d) where Vector reasonably anticipates that due to circumstances outside its reasonable control, the supply of electricity or any capacity to any Point of Connection is or will be reduced, impaired or interrupted;</p> <p>(e) for any other purpose, which, in Vector's reasonable opinion, requires the interruption or reduction in the conveyance of electricity;</p> <p>(f) if supply of electricity to the Grid Exit Point is, or will be, reduced, impaired or interrupted;</p> <p>(g) to allocate electricity where there is insufficient electricity to fully satisfy the demands of all customers whose premises are connected to the Distribution Network;</p> <p>(h) upon instructions from any Transmission Service Provider or any central or local government or statutory authority, or as a result of an action by any Transmission Service Provider under any agreement between Vector and that Transmission Service Provider; or</p> <p>(i) in response to an event of Force Majeure,</p> <p>and, wherever possible, Vector shall use reasonable endeavor's to provide the customer with as much advance warning of such interruption as is practicable in the circumstances. Where such prior notice is not possible, Vector will notify the Customer of such interruption as soon as practicable after the interruption has commenced.</p> <p>Schedule 1 Section 5</p> <p>Planned Maintenance: Where Vector plan to undertake maintenance on the Distribution Network that requires an interruption to the supply of electricity to any Point of Connection, Vector will notify the customer either directly or via the Customer's Retailer in writing to that effect, so that the Customer will receive 10 working days' notice prior to the interruption. Vector shall have no liability to the Customer in relation to failure to give such a notice.</p> <p>Restoration Times: In the event of an unexpected interruption to the supply of electricity Vector plans its resources in order to restore supply to most customers within 3 hours; however events outside Vector's control may influence this timeframe and Vector accepts no liability for failure to restore supply within such time frame. For instance, heavy traffic, multiple concurrent outages (due typically to inclement weather conditions) outages on networks not owned by Vector, which affect Vector network, or outages on remote areas of the network or emergency services preventing access, may mean that Vector is unable to restore supply in this period.</p> <p>Where restoration takes over 3 hours Vector will provide the customer with a written explanation for the extended restoration time frame if requested in writing by the customer.</p>
2.4.17 (1)	250kVA

The electricity supply capacity (in kVA) of the assets used for the purposes of conveying electricity under the contract - (a) at the ICP if the electricity conveyed to a consumer	
2.4.17 (2) The voltage at which the electricity is to be supplied or conveyed under the non -standard contract	11,000 volts

Electricity Distribution Information Disclosure Determination 2012, section 2.4.12 Prescribed Terms and Conditions of New Non-Standard Prescribed Contracts Vector for the Disclosure Year ending 31 March 2014	
New non-standard Agreement	
Prescribed term (a) Describe the goods or services to be supplied under the contract	Introduction: The agreement sets out the terms that Vector has agreed to connect and permits the continued connection of the Customer's electrical fittings to the Distribution Network at the Customer's Premises and will provide Network Services to the Customer.
Prescribed term (b) Determine or provide for the determination of the quantity or amount of those goods or services	Schedule 1:2. Supply Capacity The capacity which Vector will, from the Start Date make available to the Customer and upon which the Network Charge is based is 2000kVA.
Prescribed term (c)ii Specify, determine, or provide for the determination of the timing of payment for those goods or services	Clause 8.3(a) The Customer agrees to pay to Vector the Charges as follows: The Charges for the previous month will be invoiced by Vector to the Customer by the 9th working day of each month and will be payable by the Customer on or before the 20th day of that month. If Vector fails to send an invoice to the Customer by the 9th working day of any month, then the due date for payment for that invoice will be extended by one working day for each working day that the invoice is late.
Prescribed term (c)iii Specify, determine, or provide for the determination of the security for payment for those goods or services	15.1 Guarantee: The Customer agrees that it will, if required to do so by Vector, procure a guarantor to guarantee payment of the Charges on the terms of the guarantee set out in Section 6 of Schedule 1. Schedule 1 Section 6 [Is blank]

<p>Prescribed term (c)iv Specify, determine, or provide for the determination of the EDB's obligations and responsibilities (if any) to consumers in the event that the supply of electricity lines services to consumers is interrupted.</p>	<p>Clause 6. VECTOR'S RIGHT TO INTERRUPT SUPPLY 6.1 Notwithstanding clause 3.1, but subject to the Performance Standards, Vector may interrupt the conveyance of electricity to the Point of Connection:</p> <ul style="list-style-type: none"> (a) to enable Vector to inspect or effect alterations, maintenance, repairs or additions to any part of the Distribution Network; (b) to avoid danger to persons or property, or to avoid interference with the regularity or efficiency of the conveyance of electricity to the Point of Connection; (c) to preserve and protect the proper working and safety of the Distribution Network or any other distribution network through which electricity is supplied to the Distribution Network; (d) where Vector reasonably anticipates that due to circumstances outside its reasonable control, the supply of electricity or any capacity to any Point of Connection is or will be reduced, impaired or interrupted; (e) for any other purpose, which, in Vector's reasonable opinion, requires the interruption or reduction in the conveyance of electricity; (f) if supply of electricity to the Grid Exit Point is, or will be, reduced, impaired or interrupted; (g) to allocate electricity where there is insufficient electricity to fully satisfy the demands of all customers whose premises are connected to the Distribution Network; (h) upon instructions from any Transmission Service Provider or any central or local government or statutory authority, or as a result of an action by any Transmission Service Provider under any agreement between Vector and that Transmission Service Provider; or (i) in response to an event of Force Majeure. <p>and, wherever possible, Vector shall use reasonable endeavor's to provide the customer with as much advance warning of such interruption as is practicable in the circumstances. Where such prior notice is not possible, Vector will notify the Customer of such interruption as soon as practicable after the interruption has commenced.</p> <p>SCHEDULE 1.5(i) Planned Maintenance: Where Vector plan to undertake maintenance on the Distribution Network that requires an interruption to the supply of electricity to any Point of Connection, Vector will notify the customer either directly or via the Customer's Retailer in writing to that effect, so that the Customer will receive 10 working days' notice prior to the interruption.</p> <p>Restoration Times: In the event of an unexpected interruption to the supply of electricity Vector plans its resources in order to restore supply to most customers within 3 hours; however events outside Vectors control may influence this timeframe and Vector accepts no liability for failure to restore supply within such time frame. For instance, heavy traffic, multiple concurrent outages due, typically to inclement weather conditions, outages on networks not owned by Vector which affect Vector network or outages on remote areas of the network or emergency services preventing access. Where restoration takes over 3 hours Vector will provide the customer with a written explanation for the extended restoration time if requested in writing by the customer.</p>
<p>2.4.17 (1) The electricity supply capacity (in kVA) of the assets used for the purposes of conveying electricity under the contract at the ICP if a consumer or at the point the electricity is supplied to any person other than a consumer</p>	<p>2000kVA</p>

2.4.17 (2) The voltage at which the electricity is to be supplied or conveyed under the non -standard contract	400 volts
